Code of Ethics and Substance Abuse Policies Summary

While these policies are specifically written for crane operators certified by CIC, their common principles also apply to any practical examiner certified by an equivalent organization. CIC is committed to providing fair and equitable certification exams for every candidate who pursues certification through our knowledge-based Virtual Exams and skills-based Practical Exams. Thus, it is essential that any Practical Examiner authorized by CIC to administer CIC Practical Exams holds to the same standards. Please take a moment to review the policy summaries below before signing the Practical Examiner Security & Confidentiality Agreement on the next page.

CIC Code of Ethics Policy Summary

Crane Operators certified by CIC are expected to abide by an honorable Code of Ethics, as are CIC Authorized Practical Examiners. The Code of Ethics requires a commitment to personal and professional ethics, including, but not limited to honesty and integrity; professional competence and safe practices; compliance with government regulations (OSHA) and industry standards (ASME); abiding by all CIC policies and procedures; respect for others including fair work practices; non-discrimination; no sexual harassment; illegal drug/substance abuse-free work practices; personal and professional accountability; confidentiality; and no conflicts of interest.

CIC Substance Abuse Policy Summary

The lifting industry has a clear obligation to do its utmost to ensure a safe, healthy, and efficient working environment for operators, their co-workers, customers, and the general public. Unlawful or improper presence or use of controlled substances or alcohol in the workplace presents a danger for everyone. For the purposes of this policy, being “under the influence” is defined as the detectable presence of any drug or substance in the operator’s body that impairs the operator’s ability to operate the crane safely.

As a condition of achieving and maintaining certification, candidates seeking certification agree to abide by this Substance Abuse Policy, along with the Code of Ethics Policy, which also includes the agreement to refrain from substance abuse. In so doing, operators (and Practical Examiners) agree to the following statements:

- I will never report to work under the influence of alcohol, an illegal drug, or substance.
- I will never use alcohol or illegal drugs while at work or on any work/job site.
- I will never work while under the influence of alcohol or an illegal drug or substance.
- I will never engage in the unlawful manufacture, distribution, sale, or possession of illegal drugs in the workplace.
- I will never abuse prescription drugs.

A full version of these policies is available in our Policies & Procedures document, which can be found on the CIC website.
